

## A Message From The President...

**Sam A. Cabral**  
International President

At the International Union of Police Associations member care is paramount. With that being stated, we realized that upon retirement we often lose the special relationships developed through years of service. We researched, analyzed and most importantly we listened to the retiree – you. Ultimately we discovered that many retirees would embrace the opportunity to “stay in the loop”; to continue to be an appreciated part of the family. And some requested that we find a way to protect them, should they choose to carry a sidearm into retirement.

I am proud to say this program answers the call ... ARLEO will be there for you [the retiree] long past retirement. We are looking forward to continuing a long standing appreciation of your service and protecting you, should you need protection. Uniquely, we were able to partner with great organizations to offer incredible benefits and programs at an unbeatable annual rate.
